Assignment-1

Exploratory Data Analysis (EDA)

- *Conduct a descriptive analysis to understand the features within the dataset. Identify the distribution of data and any patterns that may exist.*
- *Visualize the data to uncover relationships between features using diagrams such as histograms, box plots, and scatter plots.*
- *Find and explain any interesting insights from the data that might be useful for predicting.*

Data Preprocessing

- *Clean the data by handling missing values. Determine your strategy for filling in missing data or removing rows/columns if necessary.*
- *Perform encoding on categorical features and explain why you chose a specific type of encoding.*
- *Normalize or standardize numerical features that you deem necessary, and explain the reason for your choice of method.*

The image features a solid blue background. On the left side, there are two overlapping circles of a lighter blue shade. The text "Good Luck" is written in white, sans-serif font, positioned within the intersection of these two circles.
